

14/09/2006

Here we are.....

After nine months of intensive preparation, it's not a child we are happy to welcome, but schloms + partner are ready to discover the world.

After successfully dealing with all authorities, banks, telephone companies, homepage providers, and computer networks, we are now ready to serve the world of particle foams with our combined know-how.

schloms + partner is a partnership company registered in Germany offering intellectual work in the fields of engineering and commercial consulting.

#### Our Team

left to right: Martina Schloms, Georg Schloms, Christine Müller

Christine Müller and Georg Schloms will work for Teubert until the end of October, but we are available for contact at our home office.

Please understand that during this period your call will be diverted to one of our mobile phones and we will call you back as soon as possible or use our e-mail or fax connections to get in contact with you.

During the next 6 weeks we will have some days available to make appointments with you before the „official“ start of our business on November, 1<sup>st</sup>. We would be happy to discuss future business opportunities with you in the best means of our claim, “realizing potentials“.

We want to thank all those who have motivated and helped us on our way of founding Schloms + partner.

Let's move forward and realize potentials!

Christine Müller

Georg Schloms
